Control Cockroaches

POWERFUL PERFORMANCE

Inside & Out

Temprid[®] SC

Inspiring Growth
Transforming Lives

Active Ingredient:

Imidacloprid 21% + Beta Cyfluthrin 10.5% SC

Recommended Uses:

Temprid is a household insecticide. It is recommended for the control of bedbugs and cockroaches. Bedbugs are found in all types of residential & commercial situations where human beings sleep, sit or rest while cockroaches are commonly found in household and commercial premises where food is handled or processed for its consumption.

Mode of Action:

Imidacloprid over stimulates the nerves, opening the voltage sensitive Sodium channels whereas Beta Cyfluthrin causes nerve depolarization by binding to open (activated) Sodium channels.

Features & Benefits:

- Dual active substance with synergistic action and unsurpassed performance
- Odorless formulation with broad spectrum activity
- Useful for indoor and outdoor application
- Restores efficacy in resistant insects
- Low dose rate therefore cost effective
- Endorsed by HACCP for use in food and beverage facilities

Dosage:

Dilute 6 ml of Temprid in 1L of water and spray 50 ml of this solution per square meter of the target area or apply 1L of this solution to cover 20m² of area (depends on the severity of infection).

Antidot:

There is no known specific antidote. Treat symptomatically.

PACK: 100ml
